IBIS Wheelchair to Car Access Measuring Guide

Customer Name _____ Phone _____

Vehicle Year, Make and Model _____

STEP 1

Measure gap between bottom (underside) of top car door hinge to top of bottom car door hinge.

The hinge must be a minimum 250mm to maximum 410mm and a flat surface and no obstructions.

Measurement (A) _____ mm

STEP 2

Measure the distance from the ground to the top of the bottom car door hinge, this will determine if you require a small or large size IBIS unit. Ensure the vehicle is parked on a level surface.

Measurement (B) _____ mm

STEP 3

☐ Yes. I have emailed a photo of the car door hinge as shown in the picture "Step 1" to enquiries@paramobility.com.au.
